Sponsorship Brochure

Dear Industry Partners,

This has been a year like no other so far!

As you may have already noticed through various information channels, the EANS Board has decided to organise our 2020 annual Congress electronically.

This decision was deemed necessary for various reasons, the most important one being the health of our delegates, while the other was the uncertainty around the everchanging travel restrictions.

Although we will miss the opportunity for direct interaction with colleagues from all over Europe and the world, the decision to go fully 'virtual' was the only viable option in order to assure a Congress that would still allow equal options for everybody to present and to participate.

And here, we are counting on your support. In this difficult endeavor, your participation will be a tremendous support for our organization. It is the first, and possibly not the last, occasion that we are trying to build a fully virtual congress format. Hence, your participation and your feedback are essential for us. There shall be state-of-the-art lectures by international experts, and many classical lectures, which were selected from the submitted abstracts.

So, let's be positive about our fully virtual EANS congress. Let's learn from it for the future. And yet, let's hope that we will be united soon again in the real world - no later than in Hamburg 2021, and ideally before, on the occasion of our various courses and educational activities.

Join us to go... beyond borders together!

Yours truly,
For and on behalf of the EANS Board

Karl Schaller
President
